Education

B.Com. in Business Information Systems (BIS) Helwan University Sep 2020 – Jun 2024
GPA 3.936 – Grade A+ (Excellence with Honors) Cairo, Egypt

Professional Experience

Frontend Engineer Dec 2024 – Present
Banque Misr (Full-Time) Cairo, Egypt

- Worked as Frontend Developer in the Core Squad serving all bank applications.
- Developed and maintained reusable UI components using the internal design system.
- Implemented features and fixed bugs/issues across multiple applications.
- Managed releases on main branch using Angular and Nx monorepo.
- Gained strong hands-on experience with Angular and Nx workspace.
- Applied Git for version control and Azure DevOps for CI/CD and task management.
- Collaborated with cross-functional teams to integrate components.
- Collaborated in agile sprints using Jira, participated in retrospectives, and sprint planning.

Full-Stack Developer Nov 2025 – Dec 2025
MandarinCruiseLine (Freelance Project) Cairo, Egypt

- Designed and developed a responsive travel and cruise booking website using ReactJS and Tailwind CSS, delivering a modern and engaging user experience.
- Built reusable UI components for destinations, cruise packages, booking flows, galleries, and contact sections.
- Implemented responsive layouts and cross-browser compatibility for seamless performance across mobile, tablet, and desktop devices.
- Enhanced user experience through intuitive navigation, clear content structure, and visually appealing interfaces.
- Optimized website performance with lazy loading, image optimization, and clean component architecture.
- Managed source control, project collaboration, and deployment workflows using GitHub and Vercel.

Full-Stack Developer Mar 2025 – Apr 2025
7 Gates Boutique Hotel Egypt (Freelance Project) Cairo, Egypt

- Designed and developed a responsive hotel website using ReactJS and Tailwind CSS, delivering a modern and user-friendly interface.
- Built reusable components for rooms, gallery, services, booking, and contact sections to improve scalability and maintainability.
- Implemented responsive layouts and cross-browser compatibility for seamless performance across devices.
- Enhanced user experience through intuitive navigation, clean visual hierarchy, and optimized UI interactions.
- Improved website performance with image optimization, lazy loading, and efficient component structure.
- Managed deployment and version control using GitHub and Vercel.

Full-Stack Developer Jan 2025 – Feb 2025
EgyptMoonTravel (Freelance Project) Cairo, Egypt

- Designed and developed the Egypt Moon Travel website using ReactJS and Tailwind CSS, delivering a responsive UI.
- Integrated Firebase for real-time database, authentication, and data handling.
- Deployed and hosted on GoDaddy, managing domain configuration and global accessibility.
- Implemented SSL certificate for secure, encrypted data transmission.
- Optimized performance with lazy loading, code splitting, and caching for faster load times.

Angular Frontend Intern Nov 2024 – Dec 2024
Route Academy Cairo, Egypt

Coding Instructor July 2023 – July 2024
iSchool Cairo, Egypt

React Frontend Intern Jan 2024 – Feb 2024
Route Academy Cairo, Egypt

Projects

GoCart E-commerce Angular Project

Sep 2024 – Nov 2024

- Implemented user authentication using Firebase, ensuring personalized experiences for logged-in users.
- Applied the MVVM architecture pattern to build maintainable, scalable, and testable features.
- Translate complex designs into reliable, reusable, and readable code.

Graduation Project: Pharaohs Legacy React Project

Feb 2024 – Jul 2024

- Grade Achieved: A+
- Created a multi-functional React app with hotel bookings, car rentals, flights, and dynamic UI components (sliders, calendar, wishlist).
- Implemented secure authentication using Formik and Yup, plus an admin panel with React Router DOM and Material-UI.
- Integrated Stripe payment gateway for secure online transactions.

OneFamily React Project

May 2024 – Jun 2024

- Built a React e-commerce platform for books, medicines, tickets, and doctor session bookings.
- Developed a dynamic cart system with seamless updates, deletions, and Stripe-based transactions.
- Designed an admin panel for managing users, events, orders, and payments.

FreshCart E-commerce React Project

Jan 2024 – Feb 2024

- Developed a lightweight e-commerce platform with dynamic cart functionalities (add, update, delete).
- Implemented user authentication using Formik and Yup for validated registration/login.

Technical Skills

Programming languages: JavaScript, TypeScript, HTML5, CSS3, C++, Java, Php

Frameworks: Angular, React, Bootstrap, TailwindCSS, MaterialUI

Cloud: Firebase, Firestore, API Integration, Restful APIs, third-party libraries, CI/CD, GoDaddy SSL Hosting, Azure DevOps

Other: Version Control (Git), GitHub, Formik, Yup, Context API, Redux, Jest, Vercel

Soft Skills

-
- Problem-Solving, Attention to Detail, Time Management, Communication
